A construction site at sunset. A large tower crane is silhouetted against a sky with orange and yellow clouds. In the background, the steel framework of a building is visible. The scene is partially obscured by large, semi-transparent circular shapes. On the left side, there is a decorative graphic of a network of white dots and lines.

# AL-WATAN READY MIX FACTORY COMPANY

# Al-Watan Concrete Factory Company is not just a company but an integrated group

# Introduction

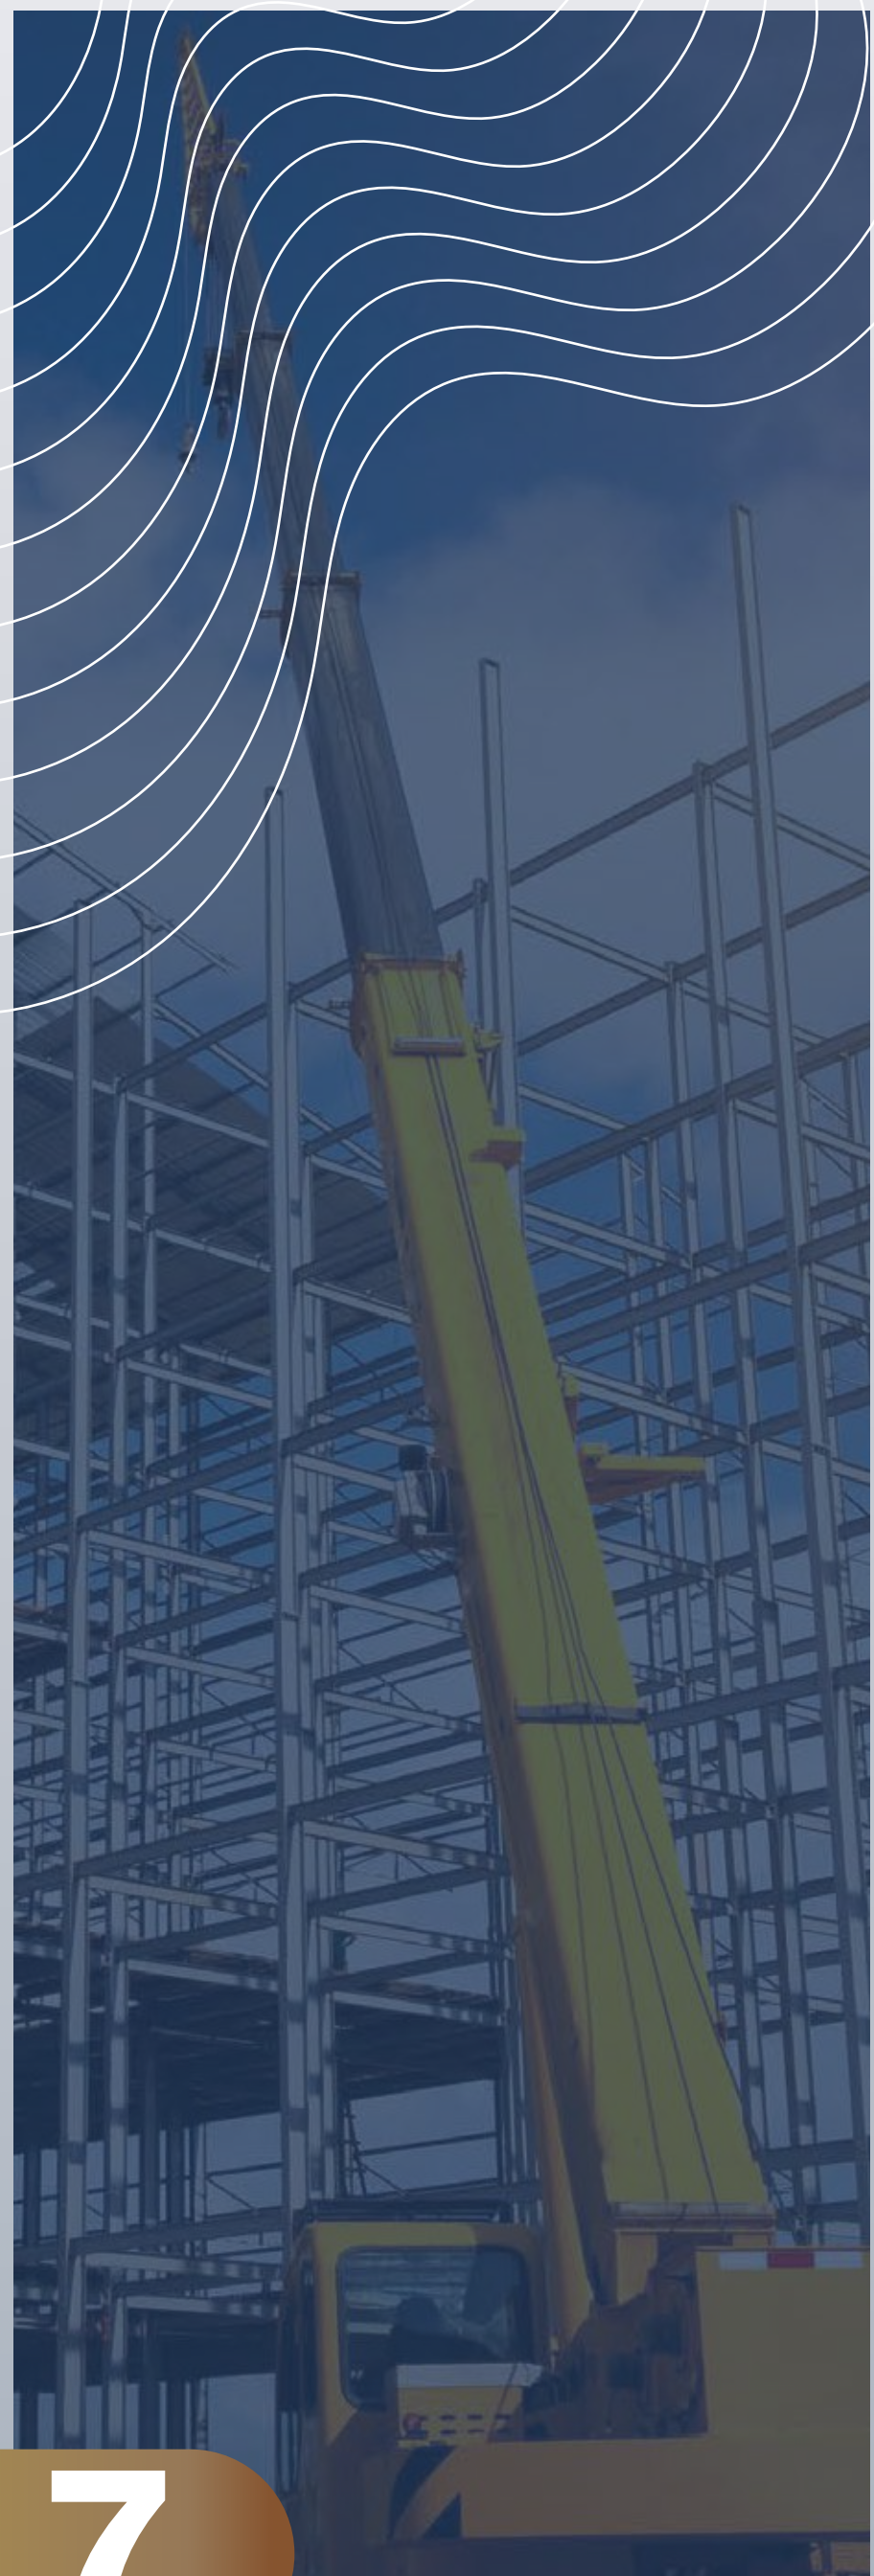

We thank God first for what has been achieved over years of work. We have managed to stand firm in the face of all challenges, and the company will not stop at this point in proving its presence. Our primary ambition has always been, and will continue to be, to break every barrier and overcome every obstacle we face in executing our projects. We are committed to providing top-quality services, and this commitment is the foundation of our ever-growing reputation, which we have worked hard to build and maintain by focusing on the finest details and upholding the quality that we have made our motto from the start.

Although our journey thus far has not been an easy one, we realize that the path to success is always filled with challenges, and our dreams for the future are limitless. We are prepared to take all necessary measures to leave a positive impact.

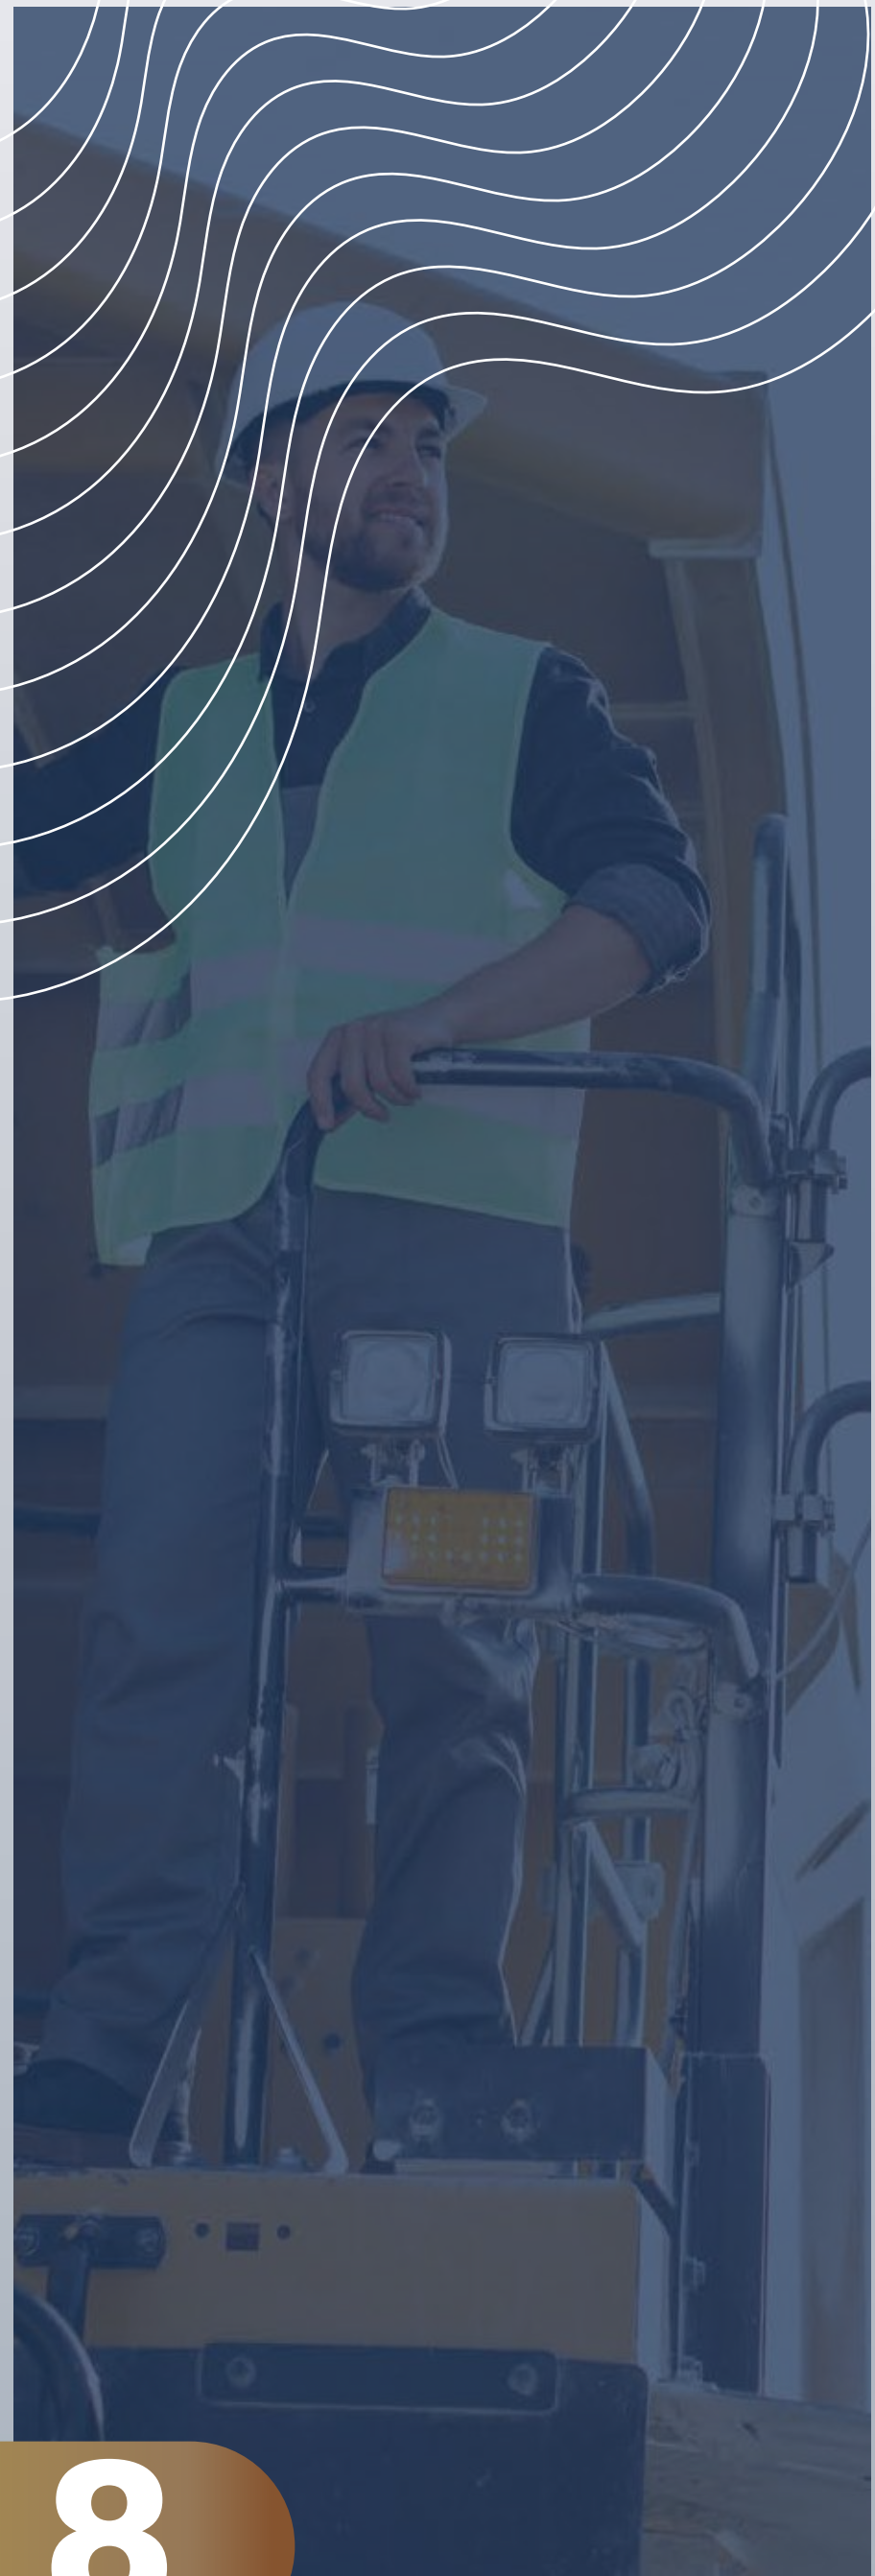

# Who Are We?

Al-Watan Concrete Factory is one of the latest concrete factories located in the heart of the industrial area in Riyadh. It has branched out into a series of construction companies and institutions in the Kingdom of Saudi Arabia. Al-Watan Ready-Mix Concrete Company in Riyadh marked the starting point for successive achievements. Following in its footsteps, Al-Watan Ready-Mix Concrete Company in Mulham became one of its prominent branches. Several other institutions joined this series to complement it and provide construction services that start from conceptual planning and end with practical execution. Among these institutions are: Al-Laith Al-Saree Institution, specializing in cement transportation and logistics; Al-Jawda cement Institution, responsible for professionally supplying cement; and Al-Naqil Al-Abyad Institution for secure logistics. These branches form a golden chain that marks every distinguished local project.

Al-Watan Ready-Mix Concrete Factory was established more than 11 years ago, excelling in professionalism, as attested by every client who has experienced our services. The industrial establishment began in 2012 and has remained a source of pride for everyone associated with it. The factory is equipped with the latest technology and equipment to produce high-quality and safe concrete in line with global quality standards. Al-Watan Factory has taken a unique approach in this field, distinguishing itself from its competitors with its concrete products, which are rated the best in the Arab market.

As a result, Al-Watan Factory has become an inspiration for construction and concrete companies, which have always been and continue to be key factors in the factory's success and distinction in the country. This is especially true for its innovative BPE ready-mix concrete products, which are constantly updated to meet the construction market's needs and contribute to the development of this beloved nation. Our concrete product line includes several machines with international patents, such as pipe machines, concrete boxes, slab and curb machines, planetary and vertical concrete mixers, all types of molds for boxes, materials, rooms, pipes, and gutters, as well as specialized machines, including large conveyors, hydraulic tippers, vibration tables, equipment, and cranes, and others.

# Our Goals:

To meet all the needs of our valued customers in the field of construction and building, with the specifications they aspire to, in order to build a relationship based on loyalty, trust, and credibility.

To provide high-quality and safe services while continually improving the quality of our products, strengthening relationships with suppliers as partners in success, and increasing the efficiency of manufacturing processes by attracting top experts from around the world.

To expand our business network beyond the local geographical area and reach every place that deserves exceptional construction and high quality, and to elevate Al-Watan Ready-Mix Concrete branches to leadership, which we foresee in the near future.

To enhance the "Al-Watan Concrete" brand, elevate it to attract the attention of local and international clients, and become an indispensable destination for every strategic project concerned with the quality of its services.

# OUR VISION

## Our Vision:

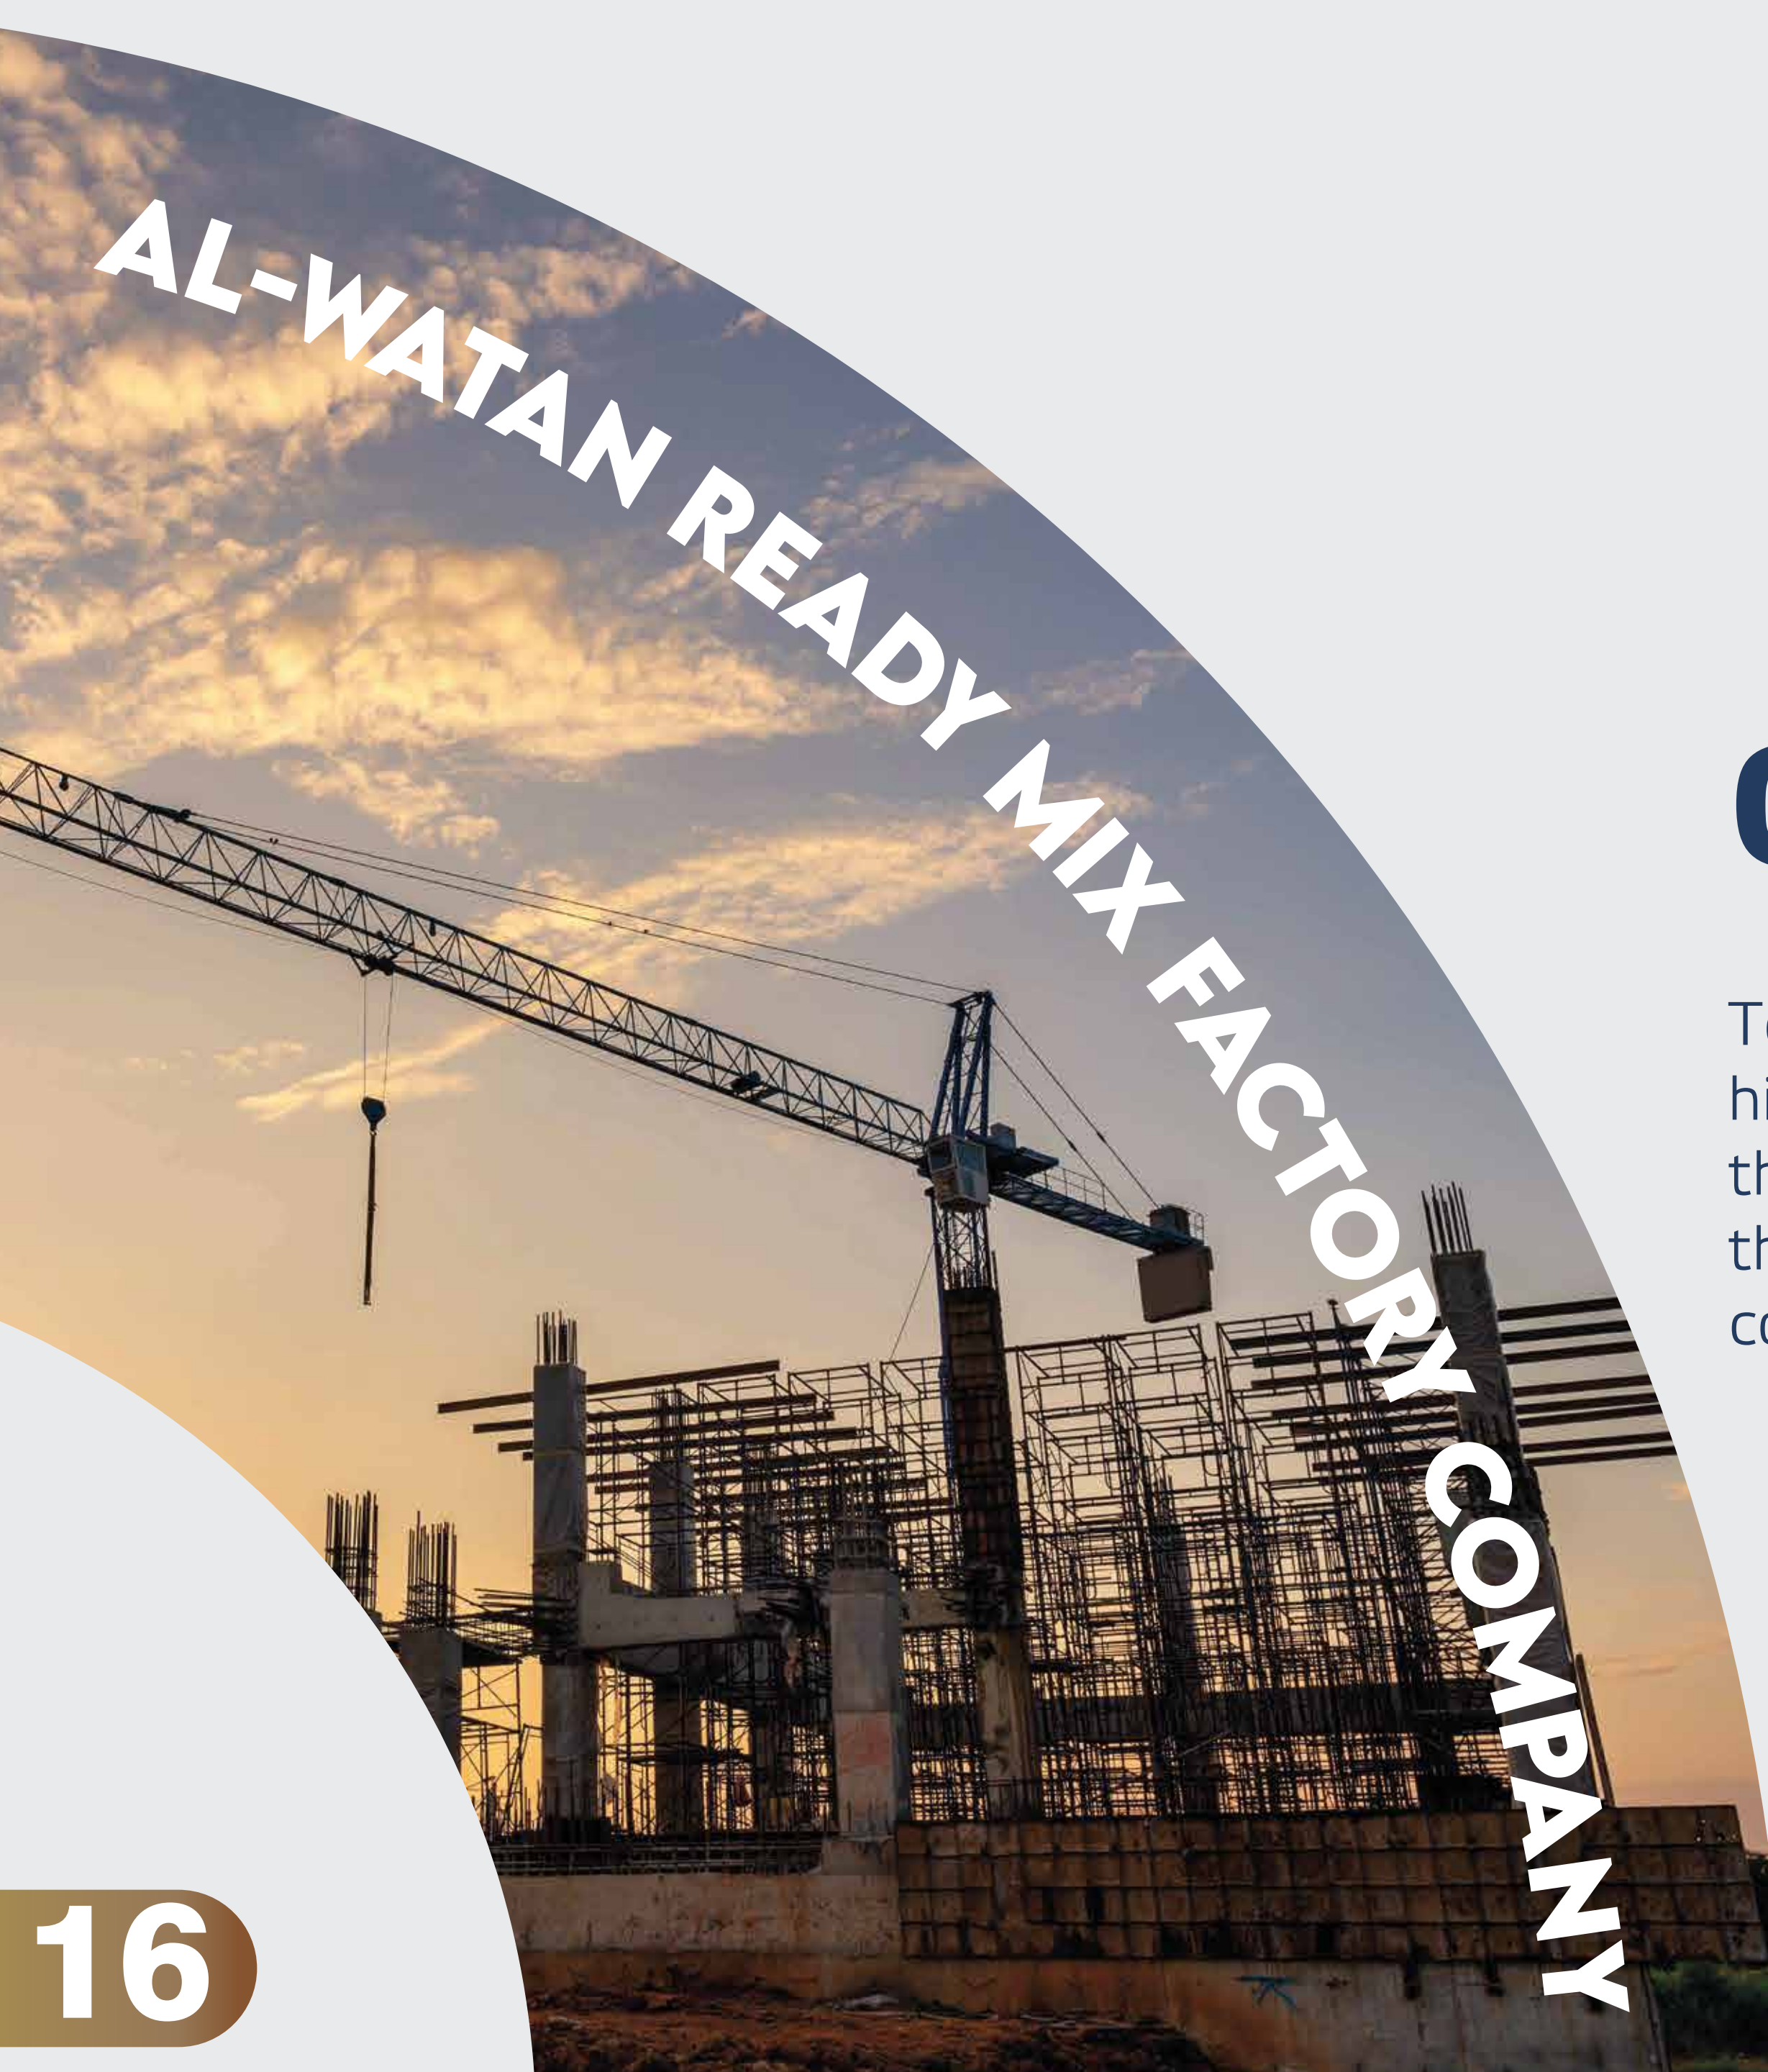

To be the ideal partner for our clients in the construction and building sector, across all our branches, and to continuously strive for leadership in the concrete industry, surpassing local boundaries to reach global standards, relying on the latest work techniques and strategies.

# Quality and Safety:

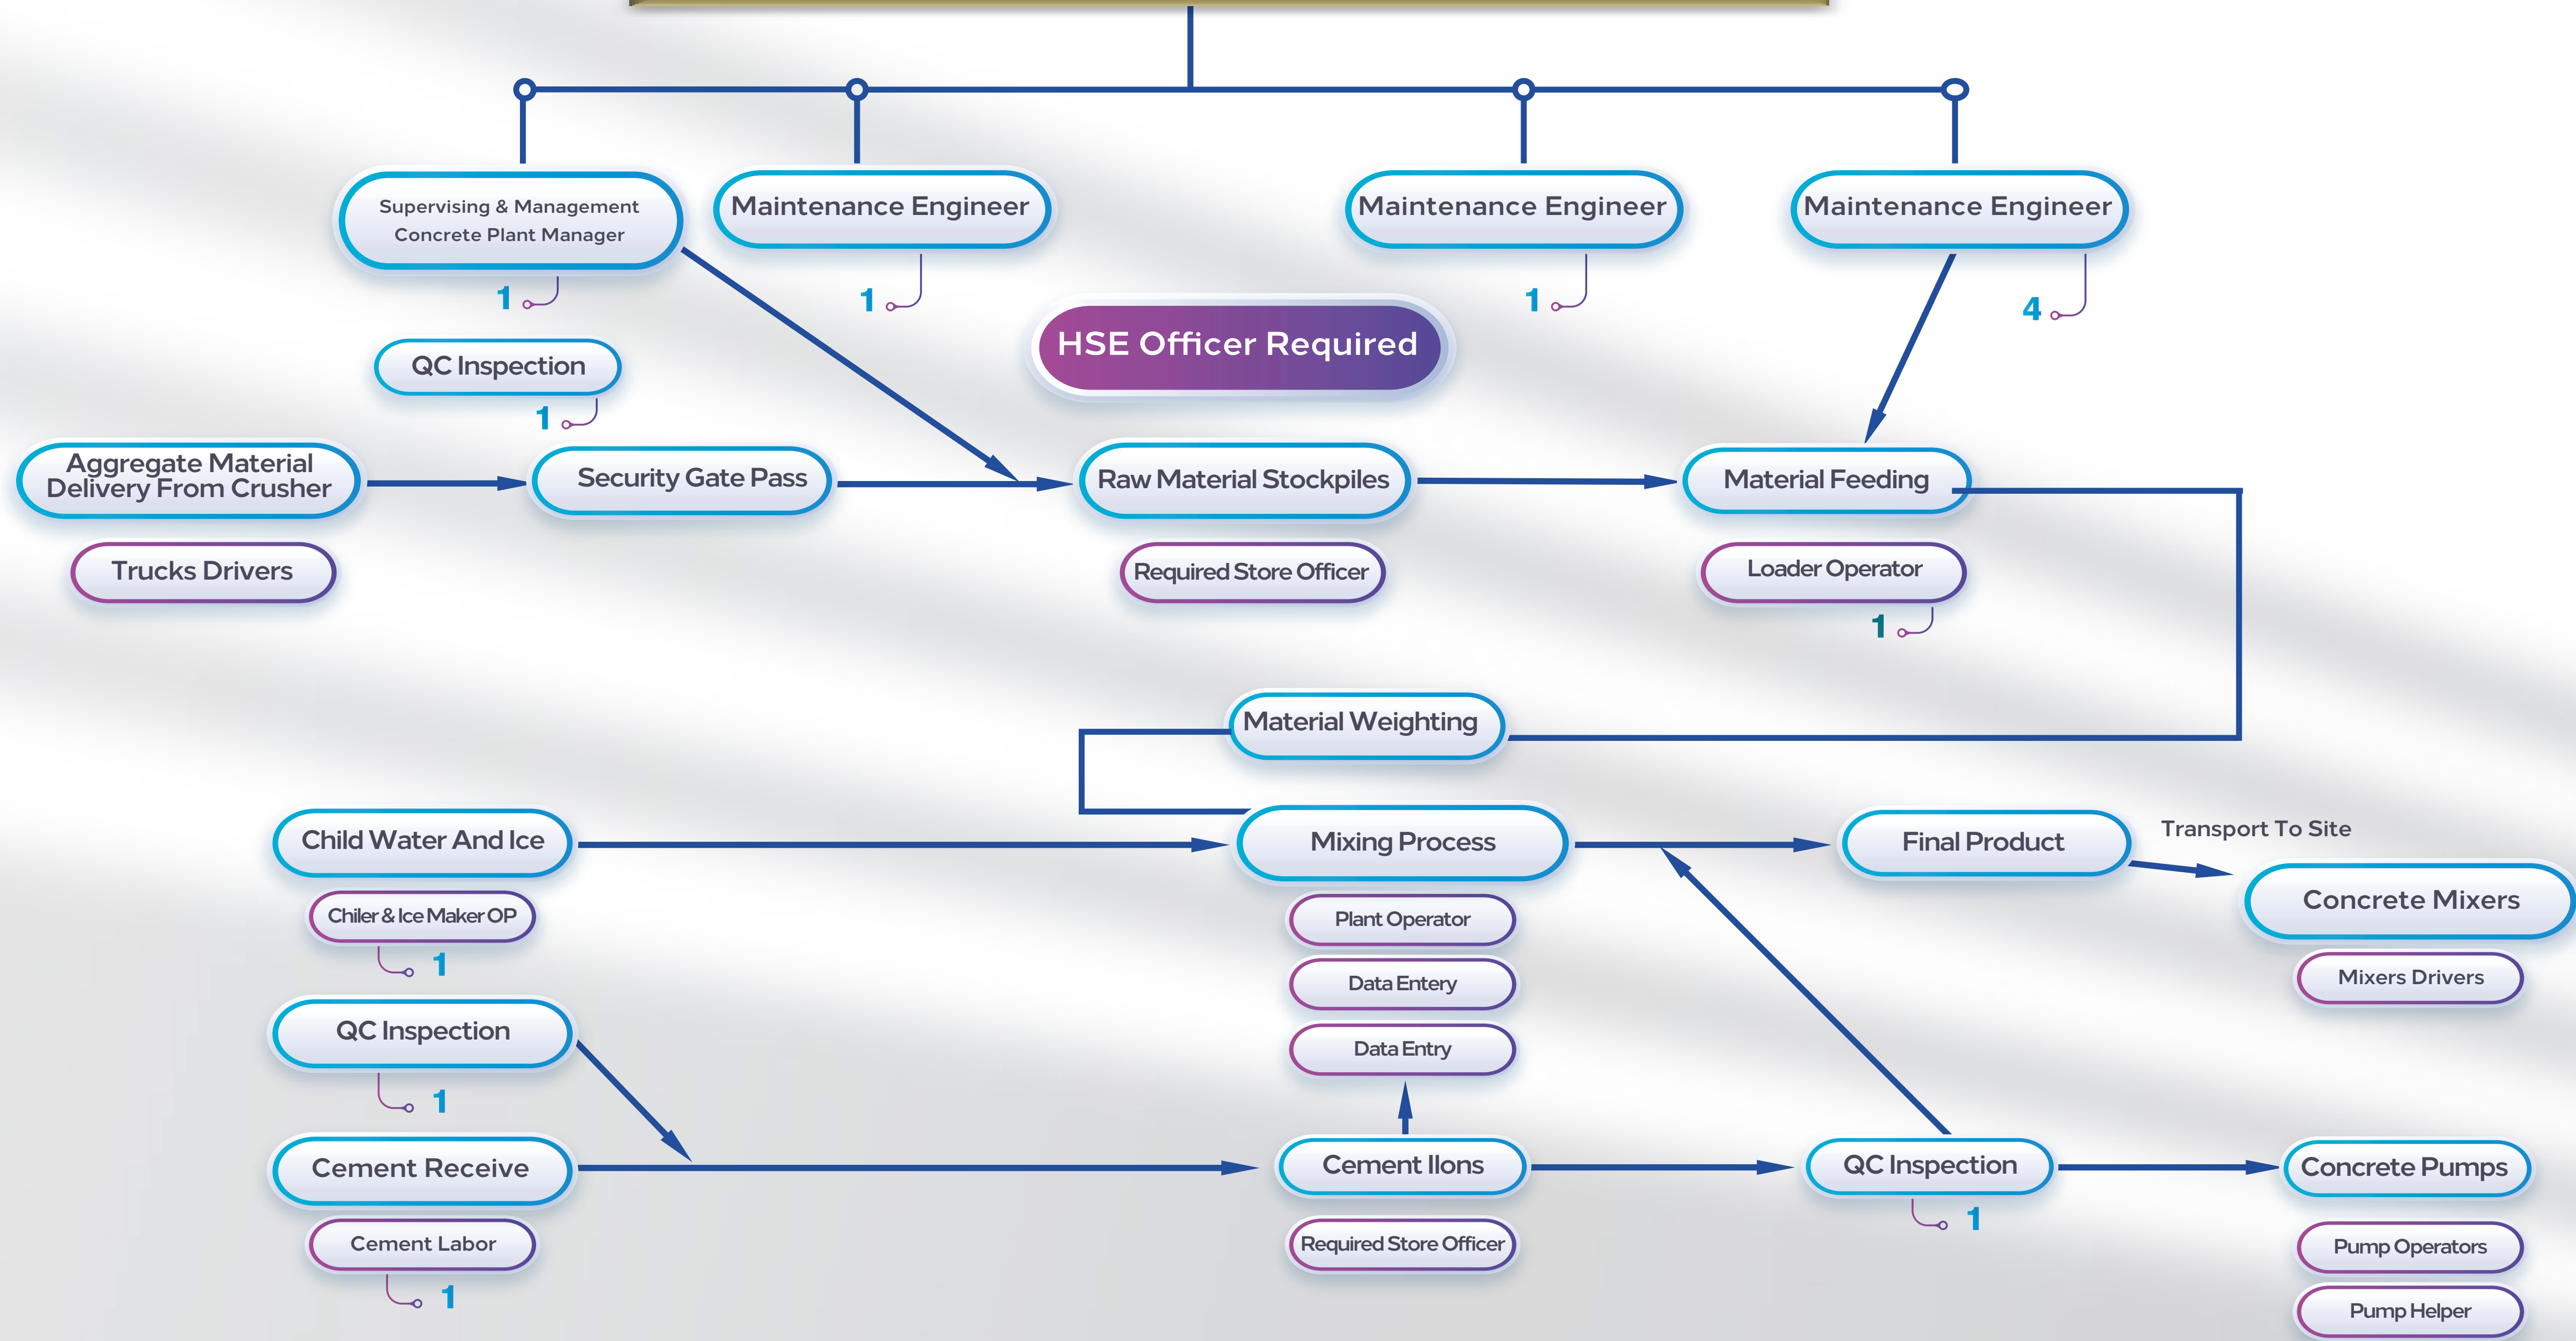

At Al-Watan and across all its branches, we place endless importance on the quality and safety of our products. We adhere to the highest industrial standards and practices in manufacturing and inspection processes. We ensure that our workforce is trained in the best methods to guarantee product quality and safety, relying on standardized raw materials, regular quality inspections, and professional labor.

Ultimately, we ensure the success of every project in all its aspects, whether in terms of materials used, the approved equipment and machinery, or even logistics and supply details. With Al-Watan Ready-Mix Concrete's series, everything becomes easier, and the country thrives with the efforts of its citizens.

Main factory: Riyadh – Al Nazim – Old Khurais Road  
Branch: Malham – Al Khair Plan

A construction site at dusk. A large crane is the central focus, with its long jib extending across the top of the frame. Several workers are silhouetted against the darkening sky, some carrying long pipes. The ground is covered with a grid of rebar for a concrete slab. The overall mood is one of hard work and industry.
